Liquid Limestone Paving

LIQUID LIMESTONE PAVING: AS INDIVIDUAL AS YOU ARE

If you're seeking an affordable, stylish and durable landscaping solution, Liquid Limestone Paving is the natural choice. Unlike pavers that are laid individually, Liquid Limestone Paving is poured en masse, so weeds and anthills can't take hold. In addition, we can handcraft a range of stylish finishes, beautiful textures and creative patterns to deliver a look and feel that's completely unique to your home.

THE BENEFITS OF LIQUID LIMESTONE PAVING

- No anthills
- No weeds
- No shifting or subsidence
- High thermal resistance - no hot feet
- Strong and durable
- Suitable for residential and commercial

Liquid Limestone Paving

YOUR CHOICE OF FINISH

CONTEMPORARY

This is what is known as a dry cut line, where the lines are cut after the paving has cured, at a width of 3mm.

AXED

This is a more natural finish with rough-looking lines. This effect is handcrafted before the concrete has cured.

HERITAGE

Like the Contemporary finish, the Heritage lines are cut in after the paving has cured but at a width of 10mm.

FEDERATION

The lines are cut in much the same way as the Axed finish. The groove is then grouted.

CARING FOR YOUR LIQUID LIMESTONE PAVING

Liquid Limestone Paving is virtually maintenance free. Once your Liquid Limestone Paving is dry, we add a top-quality sealant to repel any spillages and maintain the finished look of your floor area. It is advised that your flooring is re-sealed every two years. Some cracking is to be expected, considering the natural element of the product as well as its exposed location. Control lines cut into the Liquid Limestone Paving work to inhibit the spread of cracking, and hairline cracks do not require attention. Larger cracks up to 6mm require the attention of our team.

**AFFORDABLE, STYLISH, DURABLE
AND LOW MAINTENANCE.**

Testimonials

GREAT TO DEAL WITH FROM START TO FINISH.

I was really impressed with their professionalism and friendliness. When I got home from work the finished product looked incredible! The limestone added something very classy to our backyard! The next day we had a team arrive to do the cutting - again, VERY friendly people and nothing seemed too hard. A year on, we love our limestone and we are so happy that we chose Lifestone Paving as they did a brilliant job. We still have people come round and question us and comment about it. I would DEFINITELY recommend Lifestone Paving to anyone.

Alysha & Scott – Baldivis

THE WORK WAS OF THE HIGHEST QUALITY.

I would like to take this opportunity to thank the two Steves, Jenny and their team for the professional and courteous service you provided. Jenny's commitment to working with my wife and myself to co-ordinate a time that suited my busy schedule was of great assistance and the work that Steve and his team carried out, was of the highest quality. The communication and updates from Lifestone were timely and concise. The installers were punctual and helpful... especially when one of our cats decided to take a run through the wet limestone! The post installation clean up was also very impressive. Thank you guys... we are very pleased with the end result and the experience as a whole and would have no hesitation in recommending your services to any prospective clients.

Blythe & Stacey – Baldivis

THE JOB WAS EFFICIENTLY CARRIED OUT ON TIME.

Thank you Lifestone Paving. We spoke to several companies to get advice and quotes prior to making our decision on how to make the point of difference with the landscaping of our new home. It was not a simple project and it was so important to us to get it right. Allan was very helpful and professional from the first meeting to the completion of the job efficiently carried out on time with the least amount of inconvenience. Any issues were brought to our attention with a solution not a problem, providing us with total confidence and a final result exceeding our expectations. We are so pleased we chose to use Lifestone Paving and would not hesitate to recommend you or use you again.
